

Originally constructed in 1915, the Engine Company #15 Fire House was a working fire station located in the once-thriving Highland Park neighborhood of Richmond.

In renovating the historic firehouse, Boaz & Ruth trained and employed 30 formerly incarcerated men over 18 months of renovation. Additional trainees have been involved in every phase of planning, development, construction and management for the project.

Today, Fire House 15 is a tangible expression of the transformation that is taking place in the lives of individuals and this community. An inviting gathering place, Fire House 15 provides free wireless internet access, a movie screen, stage and other technical support for entertaining groups of up to 150 people.

It is an extension of the “force field” of hope that Boaz & Ruth is growing in Highland Park
